Let The Healing Begin

Christopher Jerry, President and CEO *

The Emily Jerry Foundation, The Emily Jerry Pediatric Safe Patient Initiative

Christopher Jerry lost his beautiful two-year-old daughter, Emily, after a fatal medication error in March of 2006. After the tragic loss, he created The Emily Jerry Foundation to increase public awareness of the systemic aspects of medicine, as well as, addressing key patient safety related issues by identifying technology and best practices that are proven to minimize the “human error” component of medicine. Mr. Jerry is a relentless patient safety advocate who spreads a message of hope, change, forgiveness, compassion, collaboration, and how to turn a tragedy into honoring Emily by inspiring positive change in our nation’s medical facilities.
